
Overview of various surcharges

Our customers should be able to avoid fees and surcharges by acting in a way that is part of reducing the costs in the commerce chain – being of benefit to all parties.

Prices
The installer prices in force at the time in question as appearing from our online price records. On electronic orders, we grant the current discount, including self-service in the service departments. On orders submitted by other means, we grant the current discount, when the total purchase/list price exceeds 2.000,- DKK.

Drop fee
For every delivery address, we charge a drop fee of 129,- DKK per day.
NB: Temporarily increased drop fee due to rising energy prices. We are closely monitoring energy prices and adjusting the drop fee on an ongoing basis.

Special order goods
On special order goods, we charge a fee of minimum 299 DKK.
Extraordinary costs can be charged separately.

Freight
Freight fees from Solar follow your purchase pattern, i.e. if your purchase exceeds 3.500 DKK per order, we deliver free of charge to the address.

Is your purchase less than 3.500 DKK per order, we charge a freight cost of 59 DKK and is your purchase less than 2.000 DKK per order, we charge a freight cost of 99 DKK. Please, note that we will add the actual cost at special or crane deliveries.

If you choose to deviate from the agreed delivery setup, an additional freight cost will be charged.

Packaging contribution
For each order we charge a packaging contribution of 13,- DKK. however, not Counter and Scan & Pay orders in the Drive-ins.

Cable cutting
As to deliveries in special measured lengths, we calculate a service charge per cutting off.
For cable types up to 50 mm2 the charge is 99 DKK per cutting off. For cable types from 70 mm2, the charge is 249 DKK per cutting off.
In our electronic ordering system, you can find information regarding which cables are included in our cable cutting service.
Cable >Ø160 cm. drums are invoiced with a mortgage -will be credited in full provided when they returned in perfect condition.
