## **WEEE - Waste Electrical and Electronic Equipment**

Solar is a wholesaler within electricity, HWS and ventilation material and is therefore according to the WEEE Directive<sup>1</sup> primarily considered as distributor and occasionally as importer of WEEE products.

Solar implements its producer responsibility according to WEEE via membership of the nationwide take-back company Elretur<sup>2</sup> which secures partly the physical treatment of worn out WEEE comprehended products and partly that data concerning WEEE products distributed to the market by Solar are reported to DPA-system<sup>3</sup> according to Danish legislation.

Solar is asking each supplier of products for resale to confirm that the products delivered to Solar are keeping the Danish legislation of course including legislation concerning WEEE.

As customer at Solar you can identify products comprehended by the WEEE legislation by an invoicing of the WEEE charge on an independent article line on the invoice from Solar.

By questions concerning WEEE you are welcome to contact our Master Data department at [masterdata@solar.dk](mailto:masterdata@solar.dk)

Med venlig hilsen  
**Solar Danmark A/S**
